

CBS Key PO tool with new procedure

- Run CBSKeys_PO.exe after completion of DM utility.
- Enter Server name and SA Password.
- Click "Connect Server".
- Click "Extract Generate Reports".
- After the message "Finished printing control reports" is thrown, click "Compare Migrated Data".
- Choose the Trecon.csv available in the DM utility folder. (T recon.csv will be available in the path: DT Utility_V4.1>> Logs#>>Upload logs)
- Download "ReconReportGenerationTool" from the below said link:
<https://drive.google.com/open?id=0B25bTWT2-kXgfnhZTUVCa0ZTYl9pR3FMNVV1bUIUOVkwRUJRUVUJnRm5Yc2xfejLUmFjQXc>
- After the message "**Finished comparison**" is thrown, run "ReconreportGenerationtool.exe"
- Enter Server name and SA Password.
- Click the Type "**Postoffices**" and Report Type "**Trans(T)**"
- Click "**Generate**"
- Two recon reports will be generated in the folder where "ReconreportGenerationtool.exe" exists.
- Open the T recon report which is in excel format.
- If there is any difference in the T recon report, forward the T recon report to DMCC-Chennai (dmcchelpdesk@gmail.com) for solution and for further processing.
- The above said excel report is only for reference and verification, so PO can re-upload the database in time after making necessary corrections. Hence there is no need to share this recon report to Circle-DMCC.
- Send the following files to the concerned Circle-DMCC.
 - i).dmcc file
 - ii) live accounts.pdf
 - iii) summary pdf
 - iv)DMCC_files.zip available in the DM utility folder
